Harvest Solutions Farm is an innovative component of Second Harvest's strategy to provide food and nutritional security for all in Orange County. With Harvest Solutions Farm, we have strengthened operations and paved the way for a new focus on pursuing planned nutrition based on consistent access to fresh protein, produce and dairy—rather than relying on situational nutrition driven solely by donations. Our business model now focuses on the weekly purchase, bulk donation, and now **harvesting** of nutritious food.

Harvest Solutions Farm allows Second Harvest to mitigate challenges like rising food prices and supply chain disruptions. The Farm's location, just 3.6 miles from the Food Bank, greatly reduces the number of miles trucks drive to deliver ultra-fresh produce to our distribution center and thereby reduces the environmental impact. And, it drastically cuts the time from "farm to plate," providing children, families and seniors in our community with consistent access to the nutrient-dense food that can set them up for success in school, at work, and in life.

The Details

Farm Launch: August 2021

Partners: Solutions for Urban Agriculture, led by A.G. Kawamura, Board Chairman and former Secretary of the California Department of Food and Agriculture; and University of California South Coast Research & Extension Center (South Coast REC).

Location: The Farm is located at South Coast REC, a 100+ acre agricultural research center in Irvine. The availability of fields for use by Second Harvest Food Bank for Harvest Solutions Farm is based on South Coast REC's research projects and is revisited semi-annually. Throughout the year, Harvest Solutions Farm encompasses up to 40 acres.

Crop Selection: Crops are selected for Harvest Solutions Farm based on several considerations including: soil and weather, availability, partner network interest, wide appeal among various cultures and ethnicities, and availability from bulk donation sources.

Crops:

- First planting in August 2021: 26,000 cabbage transplants
- Fall/Winter – Cabbage, broccoli, broccolini, cauliflower, spaghetti squash, acorn squash, butternut squash and lettuce
- Spring/Summer – Zucchini, bell peppers, watermelon, honeydew melon, yellow squash and green beans

Volunteer Support: Volunteers are key to the success of Harvest Solutions Farm.

- Volunteer shifts are open to participants 7+ years of age (volunteers 7-17 years old must be accompanied by an adult chaperone)
- Volunteer shifts are generally 7:30-11:00am Tuesday through Saturday. During daylight saving time, Tuesday shifts move to 4:00-6:00pm.
- Volunteer activities include planting, weeding and harvesting.
- To date, we have averaged 170 volunteers per week.

"I love volunteering at Harvest Solutions Farm because I love being outside. It's nice to be outdoors in the quiet and experience the peacefulness of the farm. And it's an opportunity to see first-hand how our efforts are going toward feeding people with every piece of produce we harvest." -Steve Z.

By supporting a Virtual Food Drive, you are helping to provide food for families like Kimberly's. Kimberly's family is among those we serve. Kimberly, a Vanguard University student, has turned to the school's pantry for food assistance, both for herself and her family.

"Not having access to food has been very difficult. College students shouldn't have to worry about what they're going to eat. They should be thinking about finishing assignments and studying for their exams."
