SECOND HARVEST AT A GLANCE

SECOND HARVEST FOOD BANK WAS FOUNDED IN 1983 as the Food Distribution Center by the Council of Orange, Society of St. Vincent de Paul. In 1997, the food bank was rebranded and named Second Harvest Food Bank of Orange County. Second Harvest moved from its location in Orange to Irvine 10 years later.

We serve the Orange County community and distribute nutritious food through a network of partners and pantries throughout the county. They include houses of worship, schools, after-school programs, colleges and universities, senior centers, shelters for the unhoused, soup kitchens and transitional housing facilities.

FOOD DISTRIBUTED

As of November 8, 2024

Harvest Solutions Farm is an innovative component of Second Harvest's strategy to provide food and nutritional security for all in Orange County. With Harvest Solutions Farm, we have strengthened operations and paved the way for a new focus on pursuing planned nutrition based on consistent access to fresh protein, produce and dairy—rather than relying on situational nutrition driven solely by donations. Our business model now focuses on the weekly purchase, bulk donation, and now **harvesting** of nutritious food.

Harvest Solutions Farm allows Second Harvest to mitigate challenges like rising food prices and supply chain disruptions. The Farm's location, just 3.6 miles from the Food Bank, greatly reduces the

number of miles trucks drive to deliver ultra-fresh produce to our distribution center and thereby reduces the environmental impact. And, it drastically cuts the time from "farm to plate," providing children, families and seniors in our community with consistent access to the nutrient-dense food that can set them up for success in school, at work, and in life.

The Details

Farm Launch: August 2021

Partners: Solutions for Urban Agriculture, led by A.G. Kawamura, Board Chairman and former Secretary of the California Department of Food and Agriculture; and University of California South Coast Research & Extension Center (South Coast REC).

Location: The Farm is located at South Coast REC, a 100+ acre agricultural research center in Irvine. The availability of fields for use by Second Harvest Food Bank for Harvest Solutions Farm is based on South Coast REC's research projects and is revisited semi-annually. Throughout the year, Harvest Solutions Farm encompasses up to 40 acres.

Crop Selection: Crops are selected for Harvest Solutions Farm based on several considerations including: soil and weather, availability, partner network interest, wide appeal among various cultures and ethnicities, and availability from bulk donation sources.

Crops:

- Fall/Winter – Cabbage, broccoli, broccolini, cauliflower, spaghetti squash, acorn squash, butternut squash and lettuce
- Spring/Summer – Zucchini, bell peppers, watermelon, honeydew melon, yellow squash and green beans

"I love volunteering at Harvest Solutions Farm because I love being outside. It's nice to be outdoors in the quiet and experience the peacefulness of the farm. And it's an opportunity to see first-hand how our efforts are going toward feeding people with every piece of produce we harvest." -Steve Z.

"Not having access to food has been very difficult. College students shouldn't have to worry about what they're going to eat. They should be thinking about finishing assignments and studying for their exams."
