HARVEST SOLUTIONS FARM

OVERVIEW

Harvest Solutions Farm is an innovative component of Second Harvest's strategy to provide food and nutritional security for all in Orange County. With Harvest Solutions Farm, we have strengthened operations

and paved the way for a new focus on pursuing planned nutrition based on consistent access to fresh protein, produce and dairy—rather than relying on situational nutrition driven solely by donations. Our business model now focuses on the weekly purchase, bulk donation, and now harvesting of nutritious food.

Harvest Solutions Farm allows Second Harvest to mitigate challenges like rising food prices and supply chain disruptions. The Farm's location, just 3.6 miles from the Food Bank, greatly reduces the

number of miles trucks drive to deliver ultra-fresh produce to our distribution center and thereby reduces the environmental impact. And, it drastically cuts the time from "farm to plate," providing children, families and seniors in our community with consistent access to the nutrient-dense food that can set them up for success in school, at work, and in life.

And it's an opportunity to see first-hand how our efforts are going toward feeding people with every piece of produce we harvest." -Steve Z.

Example of How Your Support Helps

By supporting a Virtual Food Drive, you are helping to provide food for families like Kimberly's. Kimberly's family is among those we serve. Kimberly, a Vanguard University student, has turned to the school's pantry for food assistance, both for herself and her family.

"Not having access to food has been very difficult. College students shouldn't have to worry about what they're going to eat. They should be thinking about finishing assignments and studying for their exams."
