

Temperature Log

Place a log on each freezer and refrigerator. These temperatures must be checked and logged daily.

Refrigerator must be equal to or less than 41°F (5°C).

Freezer must be equal to or less than 0°F (-18°C).

Date	Time	Temperature	Initial	Date	Time	Temperature	Initial

Additional Notes:

- Temperature check should be conducted after refrigerator has been closed for 1 hour.
- Check temperature with a refrigerator or outdoor Thermometer.
- Clean refrigerator regularly to cut down food odors.
- Avoid over packing refrigerator.
- Use FIFO – don’t depend on maximum storage time.
- Remove spoiled foods immediately so that decay can’t be passed to other foods.
- If over packing is necessary, use items from each area of the refrigerator to allow air circulation.
